

Excitement Building for Safety Day Celebration

In a matter of days, we will be celebrating the first ever Safety Day Celebration here at Newark Liberty International Airport. On June 20th, we will be coming together with other providers across the airport to be a part of history and celebrate the importance of safety for our employees.

Our Safety Eight Safety Campaign continues to stress the importance of safety communication for the front line, by emphasizing our 8 step "Safety in Numbers" initiative.

Safety 8 in numbers

We are launching a company wide campaign which sees team CHOICE Aviation working together to improve our safety initiatives and numbers.
